

Appendix 01 - Proposed sitemap

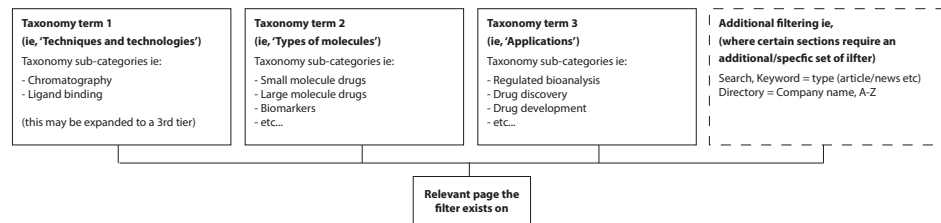

Header Navigation

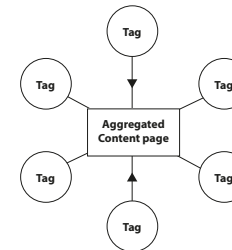

User account options

Subject Filter (3 taxonomies have been proposed however user testing may suggest that, for simplicity, only 1 is surfaced for filtering)

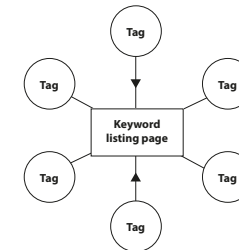

Subject Taxonomy

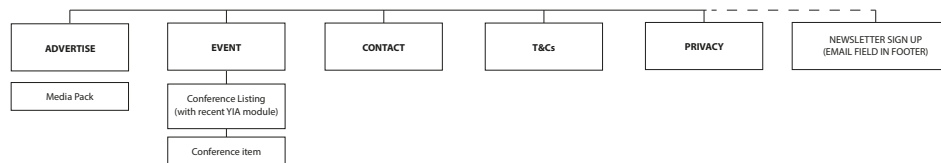

Arriving from clicking a **taxonomy tag** on a content item, this loads all content items which **pertain to that subject** in an aggregate content page layout with the ability to see items grouped by type (ie, news, article, job, webinar etc)

Keyword Taxonomy

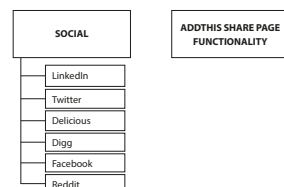

Arriving from clicking a **keyword tag** on a content item, this loads all content items which **pertain to that keyword** in a listing page layout with the ability to filter by type (ie, news, article, job, webinar etc)

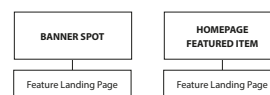

Footer Navigation

Additional persistent links (present on all pages)

Temporary Features options

Related content example (rules to be specified)
