

Future Science Group

Bioanalysis-zone.com Discovery Report

Appendix 02

Proposed & Existing Taxonomies

Proposed Taxonomies

Bioanalysis Categories

Techniques and Technologies [level 1]

- Chromatography [level 2]
- Ligand binding [level 2]
- Mass spec [level 2]
- Sample preparation, extraction and collection [level 2]
- Data processing / interpretation [level 2]
- Other [level 2]

Applications [level 1]

- Regulated bioanalysis [level 2]
- Drug discovery [level 2]
- Drug development [level 2]
- Clinical [level 2]
- Forensic [level 2]
- Toxicology [level 2]
- Sports drug testing [level 2]

Bioanalysis Keywords

FSG will review their current keywords and create a new list to be applied to the new build

Article type

FSG to review existing Article type taxonomy and provide a revised version

Job type

FSG to review existing Job type taxonomy and provide a revised version

Sector

Pharma industry

Biotech industry

CRO

Academia

Regulatory

Content icon

TBC – to represent the new Subject Category taxonomy or the Article Type taxonomy

Content icon type

Inherently, content items will be tagged by their type (i.e., News, Article Webinar etc.)
